**Pacific Rim Capital Leasing Hydrogen Fuel Cell Technology  
Morrison, TN.**

Environmental impact is rapidly becoming a primary concern in determining the way that customers configure and finance their fork truck fleets. Pacific Rim Capital (PRC) has taken a leadership position in incorporating Green into its portfolio of equipment. PRC is proud to announce the funding of its first significant fleet of hydrogen fuel cells with one of the largest suppliers to the automotive industry. Hydrogen Fuel cell technology increases productivity, lowers operating costs and reduces carbon footprints. PRC has a team of equipment experts on hand to help with analysis related to residual values and the pricing of Green technologies deployed to reduce overall levels of CO2 emissions. Leasing these new technologies will not only be beneficial to the environment but will ensure that your fork truck fleet is running efficiently at the lowest total cost.

Founded in 1990, Pacific Rim Capital is a global financial services company that provides equipment leasing and asset management services to the Fortune 500. PRC maintains a leadership position in material handling equipment leasing. For more information, visit [www.pacificrimcapital.com](http://www.pacificrimcapital.com).
